Ian Lai photo

Ian Lai's Edible School Yard Project with children from Quilchena Elementary School planting seeds in raised beds at the Terra Nova Sharing Farm.

Sharing Farm goes beyond just growing food

I talk a lot about the Sharing Farm. It's a busy project that continues to take on a life of its own as it keeps on getting bigger...and bigger.

When we first started to grow vegetables (for the Richmond Food Bank) it was only six small rows at London Farm. In 2003 a search was undertaken to find a larger piece of land and we moved onto a donated half acre behind a dog kennel
