* **Mr. Ian Lai** - Edible School Yard Project

For coordinating activities regarding the Edible School Yard Project at Quilchena Elementary. This project involves hands-on activities that integrate the complete food cycle - from seed to table, from table back to soil. ESY Project connects elementary and high school students with the earth, the community around them and agriculture at large. Students learn to grow, monitor, harvest and eat nutritiously on a weekly basis.

Ian Lai is a person who is passionate about giving students the opportunity to work with the earth. His love and knowledge of gardening combined with his culinary skills have been wonderfully brought together in his project, The Terra Nova Schoolyard Society.
